THE MONTH**

*****Be sure and enter for our
other prizes*****

**PLEASE NOTE: NEXT MONTH
JULY 24TH IS A HOLIDAY AND N.U.T.S.
WILL BE HELD ON JULY 31ST.**

YOUR PRESIDENT'S MESSAGE

George Wilson

O h boy I am embarrassed. Last month's Presidents letter got lost in the silicon jungle. For some reason it was not delivered to our editor and she was forced to publish the Token Hunter without it. I will try my best to make sure this does not happen again. I want to thank Bob Campbell for taking over for me at the last meeting. I was under the weather and just couldn't make it. I understand that we were left without a meeting place last month. No notice was given and I haven't been able to get an explanation.

I'm told some quick thinking on the part of Mary Farnsworth saved the day. So on to the business at hand.

Now is the time for all good members to come to the aid of their society. The call is going out for volunteers. It's been over twenty years since the last time I asked for help at our coin show. Each year since then, devoted people shared their time and made the show a success.

I have talked about this many times at the meetings and it is worth mentioning again. The coin show pays the bills. If you like the meeting place we have, if you like the newsletter, if you like the drawing prizes at the meetings and the Christmas party, plus the other benefits of membership, please spend a few hours helping the club. We need members to help with set up and take down and also to man the hospitality table. Set up and take down consists of placing the required number of cases and lights on each of the dealers' tables

How Tokens Improved One Coin Collectors Life!!

http://www.tokencollectors.org/Members%20Area/article_display.php

By "Jerry" copyright © 2007

In 1955 like many other boys my age, I started collecting coins, cents mostly. Then I discovered "Buffalo Head Nickels" and "Mercury dimes". Soon I had the little green and blue folders for each denomination of US coinage. I pored through my dad's change each evening, asked my grandpa and grandma for any old coins they had, and in general became a "dyed in the wool" young numismatist.

As years went by, coin collecting slowed but was still there in the background. Later after I was older and finished with college, I was sent to another state due to work. I found a local coin shop not far from my workplace, and began to visit it often. My limited budget would allow me to purchase a few coins now and then. One day at the coin shop I noticed a large clear plastic bag of trade tokens, and I asked the dealer about them. I thought they were neat because they were like coins, but had the town and state on them. And guess what? The dealer sold me the whole bag for ten bucks! I was kept busy for days sorting through my treasures. There must have been several hundred tokens in the bag. I had trouble figuring out where a few of the tokens were from, as they didn't have the town or state on them. So I had to do a bit of research and I did find where each one was from. One was from my hometown!

My life immediately changed. I wanted to re-experience that excitement of finding that bag of tokens. Suddenly my hair stopped falling out of my balding head, and started to grow back!

I noticed my rent payment on my apartment went down by \$70 a month. Women seemed to be attracted to me in a way I had not noticed before! The next time I went to the local coin show, I won the door prize which was a US \$20 1878 gold coin! My boss called me in, and told me what a great job I had been doing, and gave me a \$250 a month raise! I noticed my breath smelled better, my underarms sweat less, and my skin became youthful and smooth. I got a call one morning from the IRS, who informed me they had found a grievous error in their calculations of taxes and they owed me a check for \$3,200, which they would mail me right away, along with \$94 interest! I found a one caret diamond ring in the parking lot of 7-11.

All in all, my life has continued like this for the last 30 plus years. Everything has gotten better and better since I took up the collecting of trade tokens! Magic? Destiny? I don't know!

All I can say is that trade tokens changed this old coin collector's life for the better in a thousand "good for" ways!

Meaningful Humor by--"Jerry" in mid-America

Your President's Message Continued from Page 1

on Friday morning and then removing them on Saturday night. At the hospitality table you will get to greet our guests, take the admission fee, give each a special newsletter and sell some of the clubs numismatic items. Signup sheets for both will be available at the meeting.

While I'm on the subject of volunteers, we are in need of a secretary. This is an office dictated by the new by-laws. This person is responsible for taking notes at the regular and boards meetings and keeping a record of them.

I would like to encourage everyone who can to participate in the find of the month. This is the one competition geared towards our metal de-

tector members. All that is required is that the items are ones you found in the ground over the last month. The members vote on the finds and the winners receive a silver dime.

Our speaker this month will be Dr. Steve Lacy. Over the years Dr. Lacy has made a study of Mat Warner and the other "bandit riders" who were his partners in crime. Over the years I remember my father telling me stories about the Robbers Roost Gang and how members of my family had encountered them. If you have deep roots here in Utah or have an interest in history that doesn't follow the main stream, then I am sure you will enjoy Dr. Lacy's presentation. If you have a copy of his book, "Last of the Bandit Riders Revisited," bring it along for an autograph.

I want to thank Bruce Dugger for coming by to talk to us. I have known Bruce for several years and have seen many interesting finds made by him. Some would say he is very lucky, but I know he works very hard to get those finds and he makes his own luck.

Hope everyone is working on the treasure hunt. In order to get a jump on the competition you need to come to the meetings. Remember the treasure is worth at least \$500.00.

At this month's meeting we will be taking orders for our 2008 Medals. Encased quarters will also be available for sale. Buy enough to keep up your collection and buy some extras for traders. See you at the meeting.
George

ROBERT FITTS PARK
3100 SOUTH 500 EAST
SOUTH SALT LAKE

TEST YOUR STATE QUARTER I.Q.

Which State Quarter...

- *was designed by a 6th and 7th grader?
- *honors the world's largest steel span bridge?
- *is the only state quarter with writing in Braille?
- *honors the Wright brothers, a WWI flying ace, the first U.S. astronaut to orbit the earth and the first man to set foot on the moon, all in 4 carefully chosen words?
- *bears the words from a toast written for a reunion of Revolutionary War battle survivors?
- *quarter pays tribute to a famous tree that, according to legend, hid the crucial document that preserved the state's independence?
- *plays tribute to a trumpet and a pelican, and why?

1. Why was the Utah state quarter the 45th to be issued in the State Quarter Program?
2. What is the familiar name for the "Corps of Discovery" honored on this state quarter design?
3. What nickname was given to this state by George Washington, and is now immortalized for all time in its state quarter?

COME TO MEETING FOR THE ANSWERS! SEE IF YOU ARE CORRECT!

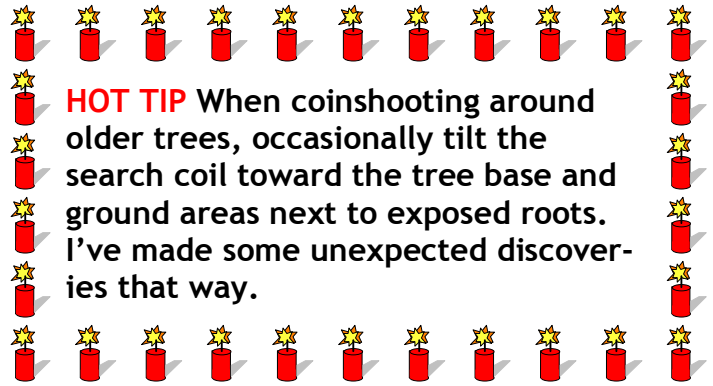

SUBMITTED BY BOYD PICKERING

What was the first coin to be issued by authority of the United States, and when was it issued?

On April 21, 1787, Congress tried to ease the frustrating economic situation by ordering the striking of an official United States copper coin, known as the Fugio Cent. Congress directed that the coppers bear a representation of a sundial, the date 1787, FUGIO ("time flies") and the motto MIND YOUR BUSINESS on obverse; and thirteen linked circles and the motto WE ARE ONE on reverse. Because it is believed Benjamin Franklin suggested the mottoes, these coppers are frequently called Franklin Cents. The United States did not have a mint in 1787 and awarded a contract for the striking of 300 tons of Fugio coppers to a Mr. James Jarvis, part owner of a New Haven company that had coined coppers for the State of Connecticut. Jarvis defaulted on the contract, and produced but 400,000 Fugio coppers for the Treasury, most of which were struck in early 1788.

HOT TIP When coinshooting around older trees, occasionally tilt the search coil toward the tree base and ground areas next to exposed roots. I've made some unexpected discoveries that way.

SUBMITTED BY ANONYMOUS NUT

1. Copper and gold are the only 2 metals to have a distinctive color. All others are white to grey.
2. Canada produced a 100 kilo-gram .99999 gold coin (220 pounds) with a face value of 1 million dollars.
3. The earliest Christian date known on an English coin is 1548.
4. In 1917 Henry Ford ordered 1 million "coins" with his image on them to resemble the Lincoln cent. World War 1 stopped production very early and no one knows how many were produced or currently exist. They are worth around \$25 to \$40.
5. A recent article I read stated Polish coins were hot and increasing in price quite a bit here in the United States.
6. UTA was having trouble with cheap amusement tokens being used for payment of fares until recently when they upgraded their machines.
7. The US Mint forbids flags to be depicted on any state quarters.
8. More pattern coins were produced in the year 1877 than any other year by the US Mint.
9. A 1964 Kennedy half dollar sold for \$18,000 at auction in 1969. It had been glued to an envelope on March 24, 1964 and cancelled at the post office on that day. It was the first day of issue for the 1964 Kennedy half.
10. Although the 1909 VDB S cent has a mintage of 484,000 and the 1909 VDB proof a mintage of only 420, the VDB S is worth more due to a higher demand.
